Re: Implementation of the Telecommunications Act of 1996-Telecommunications Carriers' Use of Customer Proprietary Network Information and other Customer Information, CC Docket No. 96-115; Petition for Rulemaking to Enhance Security and Authentication Standards for Access to Customer Proprietary Network Information, RM 11277

Dear Ms. Dortch:

On February 2, 2007, Susan Jin Davis of Comcast Corporation spoke with Commissioner Robert McDowell to discuss the above-referenced proceeding. Comcast explained that it is committed to protecting customers' privacy and has undertaken comprehensive measures to protect its customers' information. Comcast urged the FCC not to adopt an opt-in rule requiring carriers to obtain customers' affirmative consent before sharing any customer information with independent contractors that assist carriers in their marketing efforts. Comcast also urged the Commission to provide carrier's sufficient time to implement any new CPNI rules it adopts to avoid disruption to customers.

Please do not hesitate to contact me if you have any questions about this matter.

Sincerely,

A handwritten signature in black ink that reads 'Mary McManus'.

Cc: Commissioner Robert McDowell
